Cell phone: +8801570282687, +8801842033142

Address: House # 1425, Dhaka House, Sayed Nagar, Block B,
Notun Bazar, Vatara, Dhaka.

Objective:

A passionate and dedicated Computer Science and Engineering student seeking an academic internship to apply programming, software development, and problem-solving skills in a dynamic environment while gaining practical industry experience.

Technical Skills:

Programming Languages:

- C++, Java, C#, Python, JavaScript
- Familiar with: TypeScript, PHP

Web Technologies:

- HTML, CSS, PHP

Frameworks & Development:

- .NET Framework, REST API Development

Databases:

- MySQL, SQL Server

Tools & Platforms:

- GitHub, Visual Studio, VS Code, IntelliJ IDEA, Android Studio, XAMPP, Postman, pgAdmin

Core Concepts:

- Object-Oriented Programming (OOP), Database Design, ER Modeling, SDLC, Software Testing

Currently Learning:

- NestJS (Backend Development)
- React, Next.js (Full Stack Development)
- Kotlin (Android Development)

Practical Skills:

- Requirement analysis and problem solving
- Basic software testing concepts
- Database design and SQL
- Programming fundamentals
- Team collaboration and documentation

Academic Projects:

Online Library Management System

- Designed and developed a database-driven system to automate library operations
- Implemented book borrowing, transaction tracking, payment handling, and fine calculation
- Applied SQL queries, data normalization, and ER modeling to ensure data integrity and security
- **Tools & Technologies:** MySQL, XAMPP Server, IntelliJ IDE

Blood and Organ Donation System

- Built a system to connect donors and recipients for efficient blood and organ donation management
- Implemented donor/recipient registration, donation tracking, matching, and inventory management
- Applied object-oriented design principles to enhance system reliability and maintainability
- **Tools & Technologies:** C#, SQL Server, Visual Studio
- **Features:** Authentication (User/Admin), Donation & Transfer Management, Dashboards, Donor & Recipient Records

Travel Agency Management System

- Developed a software solution to manage tour packages, customer bookings, and payments
- Applied object-oriented programming principles using **Java** for scalability and maintainability
- Designed core modules including user management, booking system, and admin panel
- **Tools & Technologies:** Java, MySQL Server, VS Code
- **Features:** User Management, Tour Package Management, Booking System, Payment Management, Admin Panel

Smart City with Metro Train (Computer Graphics Project)

- Developed a 2D simulation of the Bangladesh Metro Rail system
- Implemented key computer graphics concepts, including rendering, transformations, and animations
- Designed interactive scenes: metro station, cityscape, and lake environment
- Features include day/night mode, dynamic lighting, and animated vehicles and environmental elements
- **Tools & Technologies:** OpenGL, C/C++

Smart Environmental Monitoring System (IoT-Based)

- Proposed an IoT-based system to monitor real-time environmental parameters (air quality, temperature, humidity, harmful gases)
- Designed a mobile/web dashboard with real-time alerts and notifications
- Followed the **DSDM software development model**, ensuring flexibility and user involvement
- Conducted structured risk analysis and prepared comprehensive testing and maintenance plans
- Focused on low-cost, scalable, and secure system design for public and government use

Campus Marketplace System

- Developed a web-based peer-to-peer marketplace using **MVC Architecture** for buying and selling items within a university campus
- Implemented secure user authentication, product listings, search, cart, order placement, and reviews
- Included admin moderation to ensure safe and reliable transactions
- Applied concepts of database design, system architecture, and user interaction
- **Tools & Technologies:** HTML, CSS, JavaScript, PHP

Education:

- **BSc. in Computer Science and Engineering** (CGPA 3.94/4), American International University-Bangladesh (**AIUB**), Expected Graduation: 2026
- **H.S.C. (Science)** (GPA 5.00/5), Shaheed Bir Uttam Lt. Anwar Girls' College, 2021
- **S.S.C. (Science)** (GPA 5.00/5), Tongi Pilot School and Girls' College, 2019

Teaching Experience / Academic Tutoring:**Private Tutor (2022 – 2023)**

- Provided one-on-one support to primary and higher secondary students
- Taught subjects including Mathematics, ICT, and English
- Helped students improve academic performance through structured lesson planning
- Developed communication, mentoring, and time-management skills

Achievement:

- ✦ IT Essentials Course Certification (Cisco Networking Academy)
- ✦ Dean Award (AIUB)

Language Proficiency:

Bangla, English
